

# Materials Delivery & Storage Policies

TAS Contract offers different materials delivery and storage options to our clients on a per project bases. This provides our clients with options for their project and piece of mind that TAS Contract will be their partner during the duration of and up to 1 (one) year after the flooring has been installed.

## Option 1: Container Direct - Staggered Delivery

Materials delivered based on installation schedule in full container increments

- Offers most aggressive pricing
- Ensures today's rates for shipping and materials
- Materials delivery based on schedule provided by Flooring Contractor
- No installation delays based on logistic delays

## Option 2: Complete Order - Out of Warehouse with Storage

Materials ordered in full, and TAS Contract stores materials once arrived on behalf of client

- Offers project pricing with storage fees\*
- Logistics rates based on common carrier pricing at time deliveries
- Materials delivery based on requests from Flooring Contractor

## Option 2: Full Truck - Out of Warehouse

Materials ordered as needed and delivered out of TAS Contract warehouse in full truckloads

- Materials availability based on demand and manufacturer inventory levels
- Pricing based on handling of materials and subject to current pricing for materials and logistics
- Materials delivery based on purchase orders from Flooring Contractor

*\*see Materials Storage Pricing for pricing options*

# Materials Storage Pricing

TAS Contract offers different materials delivery and storage options to our clients on a per project bases. This provides our clients with options for their project and piece of mind that TAS Contract will be their partner during the duration of and up to 1 (one) year after the flooring has been installed.
